PROFESSIONAL SUMMARY

.NET Developer with over 3 years of experience in developing Web Applications, APIs, Windows Services, Console Applications, and Utility Projects using ASP.NET MVC. Strong in object-oriented design, problem-solving, complexity analysis, and debugging. Proficient in .NET, Web API, Web Services, JSON, SQL Server, Kendo UI, DevExpress Dashboard Designer, Elastic Search. Experienced in front-end and back-end development with expertise in responsive UI design using HTML5, CSS, Bootstrap, and JavaScript/jQuery. Known for writing clean, efficient, and reusable code with a focus on performance optimization, privacy, and security. Created own structure for web application MVC, In the Single application we are serving multiple DB with multiple clients/venders. Single publish for multiple client and client respective DBs.

EDUCATION

Bachelor of Computer Application (BCA)   May 2015
Veer Narmad South Gujarat University, Surat
Percentage: 71%

KEY STRENGTHS

- Strong expertise in .NET MVC, WebAPI, PHP, SQL Server, and Elasticsearch.
- Ability to design scalable APIs and integrate third-party services (Shopify, MagentoBI).
- Hands-on experience in dashboard development and advanced reporting tools (DevExpress, Crystal Reports).
- Skilled in leading frontend implementation with ReactJS and React Native.
- Problem-solving mindset with focus on optimization and performance tuning.

EXPERIENCE

Software Developer   November 2022 – Present
Galaxy Infotech (Syspro ERP) – Surat, Gujarat

- Designed and implemented WebAPIs for ERP system integration with third-party platforms like Shopify and MagentoBI.
- Built sales dashboards, loyalty systems, and multi-store management solutions in .NET MVC.
- Created advanced custom dashboards with DevExpress for sales, purchase, and outstanding tracking.
- Led frontend team for catalog management project with ReactJS and React Native.
- Conducted research to solve rendering issues in React Native and optimized performance.

KEY PROJECTS

Shopify Integration API

- Developed a **.NET WebAPI** to push ERP data directly into Shopify stores.
- Designed for scalability and automation; project delivered single-handedly.

MagentoBI Webhook API

- Built webhook callback endpoints for data synchronization between ERP and MagentoBI.
- Enabled dynamic dashboards and reporting for clients using MagentoBI.

Sales Dashboard

- Developed a **.NET MVC portal** to display daily sales at specific intervals as per client needs.
- Provided real-time insights, improving business decision-making.

Custom Dashboards with DevExpress

- Created multiple dashboards for tracking **sales, purchase, and outstanding balances**.
- Delivered interactive visualization tools that improved client reporting efficiency.

Catalog Management APIs with Elasticsearch

- Developed APIs for catalog management of customers and suppliers.
- Implemented Elasticsearch for faster data retrieval and search optimization.

Loyalty Points and Rewards System

- Designed and developed customer loyalty and reward system in .NET MVC.
- Increased customer engagement and retention rates significantly.

Multi-Store Counter System

- Built ERP-based store counter system to track and manage sales across multiple stores and counters.
- Improved sales accountability and centralized reporting.

Vendor and Customer Portal

- Designed a web-based portal allowing vendors and customers to view invoices and order statuses securely.
- Automated communication workflows, reducing dependency on manual follow-ups by 40%.
- Enhanced transparency and client satisfaction with self-service capabilities.

Task Management Mobile App

- **Led the project** to build a cross-platform task management app in React Native.
- Designed the app architecture, UI/UX, and ensured scalability for enterprise use.
- Created backend Web APIs in **.NET MVC** for task creation, assignment, and tracking.
- Coordinated a small team, reviewed code, and ensured on-time delivery of milestones.

TECHNICAL SKILLS

- **Languages & Frameworks:** .NET MVC, PHP, .NET WebAPI, JavaScript, jQuery, ReactJS, React Native, HTML, CSS, SCSS
- **Databases:** SQL Server, MS Access
- **Tools:** Git, Visual Studio, VS Code, Postman, Firebase
- **Reporting:** Crystal Reports, DevExpress Dashboards
- **Search Engine:** Elasticsearch (Basic)

ACHIEVEMENTS

- Successfully developed and deployed APIs and dashboards used by 100+ clients in ERP projects.
- Recognized for independently delivering Shopify integration API and MagentoBI Webhook services.
- Optimized React Native performance for large data rendering using RecyclerListView.
- Led a frontend team for catalog management project, ensuring on-time delivery and performance improvements.
